- Scholar Athlete   *GPA 3.8*

EXPERIENCE

Narrows Baseball Club   May 2017- August 2017
Head Coach 15U   Gig Harbor, Washington
- Managed a roster of 12 15 year old athletes- Kept all players engaged in the game and focused on the task at hand and dealt with any issues that arose.
- Communicated with parents and players- Game and practice times can change, I effectively relayed this information so none of my players where late or at the wrong field.
- Designed practice plans- Practice is allotted a 2 hour time slot at the field and I had to find the most productive use of our time to make my athletes better.
- Dependability- As the head coach you have all the responsibility and have to be on time.

Gig Harbor Baseball Academy   January 2011 - July 2013
Assistant   Gig Harbor, Washington
- Answer the company phone- Many appointments were made over the phone as well as questions asked pertaining to teams and or hours of operation. Knowledge of company info and communication were needed to share this information.
- Scheduled appointments- Hitting lessons were listed by appointment. I had to use time management as well as communication to find times that worked for the customer and instructors.
- Assist with lessons and instruction- There were times were and instructor needed and additional hand to help with a customer's lesson. I would help the younger players which at times took patience and good coaching skills.
- Open and close the facility- The academy would be open before scheduled appointments for general use. I would make sure to be on time to get the academy open and everything ready for the days use. When closing it was time to clean and organize everything that was used by the customers.
